Hahnemann Monument Grounds Repair 15th Report

October 2008

Sandra M. Chase, MD, DHT, Chairman
American Institute of Homeopathy Hahnemann Monument Preservation Committee
October 2008

September 26, 2008 Update

Jennifer Talken-Spauling, Cultural Resource Specialist, NPS

“The memorial is looking well and the grounds have improved greatly since our last communication. The large dirt ‘social’ trail that had been worn into the grass has been restored to green grass.”

“The dead tree was removed and the memorial trees look great. The shrubs along the pathway have been well trimmed, improving the view through the pathway and landscape in the back of the memorial.”

The restored Hahnemann Monument, Scott Circle, Washington, DC
