FOR THE 65TH LIGA CONGRESS

The LIGA Congress of 2010

will explore ways in which homeopathy can play a vital role in the future of medicine. This historic gathering marks the 200th anniversary of Samuel Hahnemann's Organon of Medicine, and to commemorate this momentous occasion, all attendees will be receiving a facsimile copy of the original 5th edition of the Organon which includes Hahnemann's actual handwriting.

With the Congress's title "**2010: A Homeopathic Odyssey**" we are invoking the example of Homer's courageous hero, Odysseus, to emphasize this holistic science's triumph over 200 years of tribulation.

Homeopathy's foundation on the universal law of similars is finally earning it global respect as a system of medicine.

This Congress will focus on how Hahnemann's brilliant past work has shaped important facets of modern medicine.

You will learn, enjoy and be empowered by the expanding horizon of this homeopathic adventure.

ACADEMY OF VETERINARY HOMEOPATHY
13th Annual Conference will be held in conjunction with LIGA, May 19-22
